

The Verizon GLOBAL NETWORK

POWERFUL GLOBAL NETWORKS

Securely connect your systems, machines, information, ideas, and people to accelerate business performance and transform the way you work.

- State-of-the-art fiber-optic network
- Blazing fast backbone: 40G (gigabits per second) to 100G
- Reaches more than 2,700 cities in more than 150 countries
- Over 800,000 route miles, including terrestrial and undersea cable, spanning six continents

SUBMARINE CABLE NETWORK SYSTEM

Stay connected and business-focused around the world and around the clock.

- More than 80 submarine cable networks worldwide carry IP, data, and voice traffic
- Mesh network provides multiple, diverse paths across the Atlantic and Pacific, offering automatic service restoration and high availability
- Multiple diverse paths for voice and data traffic reliability

CLOUD AND DATA CENTER SOLUTIONS

Make your business more efficient, responsive, and competitive through secure and reliable data center and cloud solutions – all supported by leading expertise.

- Over 50 Data Centers, including managed hosting and colocation centers, in 20 countries around the world
- Five Global Network Operations Centers in the U.S., Europe, and Asia
- Seven Security Operations Centers in the U.S., Europe, and Asia, offering continuous security monitoring and management
- Invested more than \$150M in IMPACT, our world-class fault detection and restoration management system
